STRONG INDIVIDUALLY. BETTER TOGETHER.

The ColorSource family provides a flexible system of intuitive and affordable products to make your life easier. With ColorSource PAR, Spot, and Linear fixtures available you'll always have bright light and vibrant color no matter what your space restrictions. The compact design of the ThruPower means you have reliable, controllable power close by. The dream of controlling lighting, sound, and projection cues with one board is now a reality with ColorSource AV. ColorSource products work well together because they were designed together.

COLORSOURCE AV CONTROLS YOUR RIG - WITH STYLE

This compact console's streamlined, hands-on programming and plug-and-play setup will have even novice operators mixing LED colors and recording looks in minutes. With lighting, sound and projected image cues all on the same cue list, you're always in control.

+

COLORSOURCE RELAY TRANSFORMING SMALL-SYSTEM DESIGN

The wireless ColorSource Relay and Transmitter work together effortlessly, providing your LEDs with wireless DMX and enabling power switching for lights, making it ideal for systems with fixtures placed in remote or typically hard-to-reach places.

COLORSOURCE SPOT BRIGHTENS YOUR OUTLOOK

ETC manufactures each ColorSource Spot to extensive design and rigorous testing standards, optically calibrating each one to guarantee the same dependable color from every unit. Spot shines with brighter, richer, and more diverse colors.

COLORSOURCE PAR BRIGHTER, RICHER, AND MORE DIVERSE COLORS

With an intuitive interface right on the fixture, you can plug it in, press some buttons and have it shining bright colors in no time. And with power in and thru, DMX in and thru, and a variety of optics, it'll blend right into your lighting rig.

COLORSOURCE LINEAR AN ENDLESS BEAM OF HIGH-QUALITY LIGHT

Because of its slender shape, ColorSource Linear can be mounted in places where other fixtures cannot. Red, green, blue and lime emitters offer a large range of color capability while preserving the bright output needed from a washlight.
