

515 C-Clamp

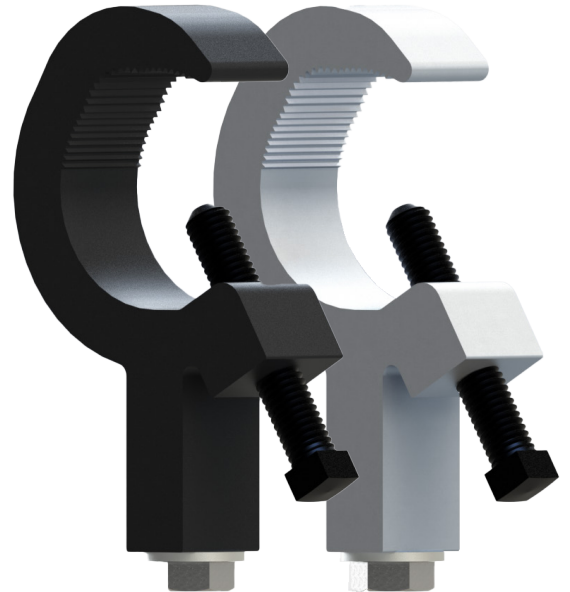

Extruded Aluminum C-Clamp

The Altman 515 C-Clamp is the ultimate must-have tool for every lighting professional looking to enhance their theatrical productions. Crafted with precision and built to withstand the demands of the stage, this c-clamp offers unbeatable stability, reliability, and versatility.

Engineered for the rigors of theatrical lighting setups, the Altman 515 C-Clamp boasts a rugged design that ensures secure and stable attachment of lighting fixtures to pipe or truss systems. With its sturdy construction, you can have complete peace of mind knowing that your lighting equipment is firmly and safely fixed in place throughout your performance.

Designed with adaptability in mind, the Altman 515 C-Clamp offers versatile usage options. It accommodates various pipe and truss sizes, making it compatible with a wide range of stage configurations. Whether you are hanging lights, effects, or accessories, this clamp provides a stable foundation for your lighting setup.
