

INFINITY™ FLUID SUPPLIER

CITC's Infinity™ Fluid Supplier allows you to safely maintain fluid levels in your bubble, snow, fog, haze or other effects machine. By refilling the included 2 ½ -gallon container, you can supply fluid for days, weeks or even months without the labor of having to manually fill every few hours. A low-voltage cable runs from the container switch to the pump unit to prevent overfill. Use the electronic timer to schedule the days and hours of the refilling periods automatically!

FEATURES:

- Automated filling mechanism
- Lightweight body
- 24 hour timer w/ Battery Backup
- Easy setup
- Pumps up to 150' horizontally and 20' vertically
- No spillage or over filling
- Automatically keeps fluids replenished for long periods of time
- High-volume pump for fast refill
- Use with a variety of equipment

1 YEAR WARRANTY
When using CITC Water Based Fluids
