

PHX3.5 LED ZOOM

The 15°-35° and 30°-55° PHX LED Zoom Spot are state of the art luminaires in function, style, and efficiency. These zoom spot profiles have been designed and engineered with a number of innovative details and features enhancing versatility and efficiency without sacrificing performance.

PHX 3.5 is a 340 Watt (RGLB) Red, Green, Blue, and Lime Zoom Spot outputting just over 10,000 Lumens which makes it a true front of house luminaire. A locking 360° rotating barrel help you keep the artistic part of your fixtures' focus intact with virtually no light leak.

The PHX3.5 features an RGLB array that won't force users to choose between deep saturates and gorgeous pastels; you'll be able to achieve brilliant whites ranging from 2700K all the way up to 10,000K along with deep golds, burning reds and springtime lavenders.

These new and innovative options are what makes the PHX LED Zoom Spot ideal for theaters, special events, television studios, or wherever superior, energy efficient lighting performance is required.
